The LNM Institute of Information Technology
DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Experiments

S. No.	Name of the Experiment	Number of Pages
1.	Discretization of signals : Sampling and Reconstruction	2
2.	Discretization of signals : Quantization and Encoding	2
3.	Discretization of signals : LTI system characterization	2
4.	LTI System Characterization II: Circular convolution and DFT makes Fourier Transform pair	2
5.	Linear convolution using ZYBO Evaluation Board	2
6.	Transform Based Lossy Compression	2
7.	Discrete Cosine Transform Based Audio Compression	2
8.	Radix-2 FFT Algorithm and complexity reduction	3
9.	Digital Filter Design: Windowing, Linear phase FIR	2
